

**Odlazim**  
**YU Grupa**

Acoustic version...could go well with an electric too.

Verse:

**Am**                                 **G**             **D**             **Am**  
Probudi me sunce kroz prozore prljave, musave  
Oblacim se zurno, kafu pijem, nestajem  
Trljam oci sanjive da mi ne bi zaspale  
Vrata guram nervozno, ptice gledam slobodne

Ref:

**C**                                 **F**  
Odlazim dok jos drugi spavaju  
**C**                                 **F**             **D**  
Koraci plocnikom odzvanjaju

Then this:

**Am**                                 **G**             **D**             **Am**  
Osvrcem se okolo, gledam puste ulice  
Krecem stazom poznatom, pustam misli slobodne

Repeat Refrain.

Than this part.

**B**             **F**             **C**  
Na obali zacaran ja sanjarim  
**B**             **F**             **C**             **D**  
Kao ladje velike tad otplovim

If you are playing the electric guitar you can do it like this as well:

**B5**             **F5**             **C5**  
Na obali zacaran ja sanjarim  
**B5**             **F5**             **C5**             **D5 D5 D5 D5 D5**  
Kao ladje velike tad otplovim
