G |-----4-----|
D |-----|
A |-----3-----|
E |-----|

```

this is the chord I mentioned earlier. This sounds better than the c

```

-----
Yuna-Decorate
-----

```

```

                G
So you decided to see me out of the blue
                C
Should I let you come over
                Am
I think you re doing fine
That girl in your arms
                Bm
Does she know where you come from
                G
Almost made me move out of town
                C

```

You don't want me to be around

**Am**

But I stayed anyway

**Bm**

Just in case

**G**

Finding reasons to hate you more than before

**C**

Like how you said you would call

**Am**

But never at all

**Bm**

Got rid of your number that I know by heart

**G**

You left your things at my place

**C**

As if I have all the space

**Am**

Cause you know I don't mind

**Bm**

Just come back when you think it's time

**G**

**C**

I'm all black and white inside

**Am**

**Bm**

Monotonous from left to right

**G**

**C**

**Am**

I decorate my house with things you love

**Bm**

Just in case you show up

**G**

In case you show up

\*\*\* (SAME PROGRESSION THE WHOLE SONG) \*\*\*

So you decided to see me out of the blue

Should I let you come over

You do this all the time

You come come and you go like

I'm nothing you know

Every time you come back to me

I'm prepared to watch you leave

You can't make your mind off

About me

I imagine what it's like, what if you might

Leave everything and come home

but I know that you wouldn't

Throughout I been through

I still worry about you

you're acting with all your friends

It's definitely the end

But you know I don't mind

Just come back when you think it's time

i'm all black and white inside

Monotonous from left to right  
I decorate my house with things you love  
Just in case you show up....  
In case you show up

I m all black and white inside  
Monotonous from left to right  
I decorate my house with things you love  
Just in case you show up....  
In case you show up
