Loner
Yungblud

[Refrão]

```
F#                        A
All my friends have deserted again
        E                    B
And I don t want to be a loner
 F#                    A
In my head, I can sleep when I €™m dead
          E                  B
Baby, don t let the hype dilute ya
```

[Primeira Parte]

```
F#
I got no want for the quiet life
     F#
No forced up smiles over tired eyes
   F#
Give me a taste of the riot life
            F#
 Cause I d rather be a martyr than grow tomatoes
 F#
Keep the young between your teeth
   F#
Take the love
   F#
Take the doves
     F#
Take the self-belief
    F#
Make your shoes look squeaky clean
           F#
But if you want to be a leader, stop being a cheater
```

[Pré-Refrão]

```
F#
 So bounce if you ve had enough
A
 Of the people you know
E
 So bounce if you €™ve had enough
B
 And just let go
```

[Segunda Parte]

       F#
Now lock me up in a riot van
         F#
As I hold up my fingers to this old man
            F#
 Cause he made sure my future plans
                 F#
Became a time bomb, sleep with the lights on
               F#
Treating the planet like a playground
              F#
Distraction for distraction
        F#
To cover up the shake down
     F#
Hey now
         F#
You better not let me out
