E	---	5--	7---	-----	0--	2---	6----	-----	-----		

you can also play the chords otherways it doesnt really matter.

Intro

|A ||Bm D (E2)| the e chord is played on the last beat
those are the chords for the intro, find the rhythm by listening

Verse 1

A
Oh, youre steeped in the winters chase

	Bm	Fm	Bm
--	-----------	-----------	-----------

Even before the Tenenbaum has all dried up,
E **A** **A/Bb**
But Im going to teach to you different this time
Bm **E**
Im awful clever as you almost certainly know.

Verse 2

(Same chord progression for the verses.)

Pre Chorus

	D	Db	Fm	E
--	----------	-----------	-----------	----------

There are few who will know where their heart truly lie,
A **E** **Bm** **Fm**
For the rest theres no hope: they can barely decide!
A **Db** **Fm(2)** **F** **D**
So a few um and ah so they never ever start!
A **E**
So if you want my advice you dont have to ask me twice Ill tell you darling:

chorus

(Is exactly the same as intro)

A	Bm	D	E
----------	-----------	----------	----------

We re getting wise tryin to find our feet

Verse 3
as before

Bridge

Or else run, you could hide, you could see what its like,
Youll soon find its no fun to have fun all the time!
Go find God in some form, let his love keep you warm,
Its entirely your call if he calls you.
But if you would desire in all things to be wise youll be none the wiser if you
ever get there,
The truth of your idols is most of them died before anybody saw.

Pre Chorus

There are few who will know where their heart truly lie,
much less I, Im not nearly as clever as Id like.
So what I mean to say is I dont know what to say!

Chorus (a number of times)
as before

and thats it
