

**Far From The Shore**  
**Zach Robinson**

Far From The Shore

**C Em**

I lay down my head at night causing dreams to take flight.

**Am Dm G**

They flow like rivers and sound like slithers through the snow in the winter time.

**C Em**

It's an epiphonie a realization it's a coming of the age.

**Am**

When you found just what your looking for.

**Dm G**

Dreams take flight and off we soar.

**C Em**

Don't count up your steps ahead just add up what you've taken.

**Am Dm G**

And times it by your faith and soon awaken.

**C Em**

With motivation your destination is not to far away.

**Am Dm G**

Your dreams are just a blueprint for a goal that you've got yet to find.

**C Em**

So fine, fine, no I can't define what this life really means.

**Am Dm G**

Just riding waves to another place, I wanna land somewhere in outer space.

**C Em Am Dm G**

So can we go somewhere I've never been before.

**C Em Am Dm G**

Can we sail across the water. Far from the shore.

Far Far right.

**Am Dm G C B**

Here we go now to a distant star in outer space. I can see the milky way.

**Am Dm**

Here comes the sun now you're my favorite star.

**E**

You light up the world and light up the life inside.

**Am Dm G**

In the morning, the moon shines a light to let me know it's alright.

**C B**

As it shines the slightest light.

**Am Dm**

And when I get to that star I hope that I find you.

**E**

To take me to another place so far in outer space.

CHORUS
