Heaven Or Hell

VERSE

E
Someone once told me all you need is love love love.
Someone once told me to look inside to see heaven above.

B **A** **E** **B** **A**
Heaven above. Heaven above.

E
Wheels spin under and pave the way to the unknown.
As we drive and drive under the sun on our way to our home now.

CHORUS

B **A** **E**
Will you go to Heaven or Hell? Nobody knows.

B **A** **E**
Have you done right have you done wrong what do you suppose.

VERSE

E
We re all human beings living in the best of times.
This world keeps on spinning around and around it goes all the time.
You light your cigarette and it burns burns burns down to the ground.
You drink your forty ounces and it slides on down getting to the ground.
