

Quiet Day

Zach Robinson

Capo 5th fret

C

G

It s a quiet day outside and I ask myself can I change that?
I hear the sound of bells and since the chills on my back.
And it s a powerful world and I m one in a million.
And I ll speak to you and I ll love you with my heart til I m dead.
I know the weight of this world can be strong you said.
Did you carry off my dream on the last day I saw you.
Can t this be the beginning of stage 1?
Don t feel your thoughts are ever being ignored.
Cuz we just love it when you start to shred.
Know you can get out of any tangled threads.

D

Why did you do it?

A

Oh I gotta know.

Em

Just confess to me I don t care I swear.
I ve got a smile on now that these days are quiet.
It s just kind of hard knowing your out there.

C - D - G

I know your out there.
I know your out there.

Theres no turning back now and that s fine by me.
I guess from now on life will be a mystery.
The million I am one of well it s just a rough fact.
And it s a quiet day outside and I m asking how can I change that?
It s a quiet day outside so baby how can I change that?
It s a quiet day outside do I even need to change that?
