Bright
Zayn

Am
   I found my life
         Em
In between shots and getting high
    Cm7
The cage I was in
      F   G
Fell away when she asked me to dance again, yeah
Am
   I found my life
               Em
In between a first kiss and a last goodbye
   Cm7   F   G
The dust settled down, now I can see through the crowd

Am
    I m loving the colour white
Em
    Surrounding your colored eyes
Cm7
Though she is the kryptonite
She stays in my crib tonight
Am
I light her like dynamite
Load her like gigabyte
Turn out the fucking lights
                          F
I wanna see you bright

                  Am
I wanna see you bright
              F
I wanna see you bright
                 Am
I wanna see you bright
I wanna see you

Cm7
   For the love in my mind, love for the bass
She likes getting high just for the day
She s different in night, she knows what I say
Free of the flash, dirt on your shoes, I don t know you

Am
    I m loving the colour white
Em
   Surrounding your colored eyes

Cm7
Though she is the kryptonite
She stays in my crib tonight
Am
I light her like dynamite
Load her like gigabyte
Turn out the fucking lights
                              F
I wanna see you bright

                Am
I wanna see you bright
                F
I wanna see you bright
                Am
I wanna see you bright
I wanna see you

I found my life in between shots and getting high
The cage I was in fell away when she asked me to dance again

F   **Am**
 I wanna see you bright
                F
I wanna see you bright
                Am
I wanna see you bright
                F
I wanna see you bright
                Am
I wanna see you bright
                F
I wanna see you bright
                Am
I wanna see you bright
I wanna see you
