I don t mind falling
If it means I get to fly again
Up in my island
Like a dream I m trying to fight against
I don t mind mischief
We re just dancing in the dark again

The light blows
Don t wanna spend time on the issue
We ll never grow old when I m with you

When I m with, when I m with, when I m with
When I m with you
The sun never comes up

When I m with, when I m with, when I m with
When I m with you
It s lit you can put it out

I can find you when you re lost
Girl you ll never see me running out

Bm A
Fuck anybody else, there s only you

. Bm A
