Laps Around The Sun
Ziggy Alberts

 This is very rough chords for the song even though Ziggy Alberts plays a very differnt style
this will allow you to at least play the song.
CAPO 4TH

[Verse 1]
G   **D**
 Do you see the way that we have grown apart
Am   **C**
 I don €™t like it at all
G   **D**
 Do you see the ways that we have gone too far
Am   **C**
 Drifting off of our course
G   **D**   **Am**   **C**
 Do you see the ways that weÃ¢Â€Â™ve let plastic cover the ocean like snow
G
 Snow it always melts
                          D
With the seasons change and the summers help
            Am   **C**
One €™s cold water and one was oil before
G   **D**   **Am**
Oh, how much there s left to learn

[Chorus]
G   **D**
Lately I €™ve been worried
                            Am   **C**
I don €™t know where to it is that I do belong
G   **D**
Lately I €™ve been too busy
                            Am
To smell the bottle brush
                                   C
Just chasing laps around the sun
G   **D**
I €™ve sat here and cried, salt running from my eyes
            Am   **C**
Wondering how the fuck will I end up with you
G
You just laugh and smile
D
Shake your head and remind me that
Am   **C**
All good things can come true
G   **D**   **Am**

Oh, how much there is left to learn

[Verse 2]
```
G                              D
 Do you see the way that we have gone too far
Am                            C
 We need now more than ever before
G                              D
 To come together put our differences apart
Am                            C
 Stop drifting off of our course
G             D                    Am                          C
Do you see the way that we need our reefs just like trees along the shore
G
If it knows to help
D
Half of what we breathe in for ourselves
Am               C
Is out of sight and on the ocean floor
G      D                  Am        C
Oh, how much there is left to learn
```

[Chorus]
```
G                  D
Lately I €™ve been worried
                    Am                C
I don €™t know where to it is that I do belong
G                  D
Lately I €™ve been too busy
                        Am
To smell the bottle brush
                              C
Just chasing laps around the sun
G                    D
I €™ve sat here and cried, salt running from my eyes
          Am                        C
Wondering how the fuck will I end up with you
G
You just laugh and smile
D
Shake your head and remind me that
Am                    C
All good things can come true
G      D                  Am        C
Oh, how much there is left to learn
    G      D                  Am        C
Ooh ohh, how much there is left to learn
    G      D                  Am        C
Ooh ohh, how much there is left to learn
```

[Picking as Outro]
