G D  
what a difference a day makes  
G D  
silence so delicious on days like these  
G D  
and by the time that my resolve breaks  
G D  
i ve already found the beauty down on my knees  
G D  
you know i want to be something  
G D  
i never want to be someone new  
G D  
some people telling me one thing  
G D  
but i know if i fall i ll hold on to you

C Em G D  
there must have been an angel inside my room  
C Em G D  
there must have been a smile somewhere in your star tattoo  
C Em G D  
so twinkle twinkle in your eyes the way it should  
C Em G D  
there must have been an angel there inside my room

G D  
i ve got the strength for believing  
G D  
life is so contagious in times like these  
G D  
you might say it s the season  
G D  
and lift me up if i ask you please  
G D  
i got a heart for intentions  
G D  
don t always know where i m gonna go  
G D  
lead you a different direction  
G D  
i can change your life if you let me grow
